Subject: Shropshire Way Survey Results

Hello All,

Thank you for completing the Shropshire Way Main Route survey. The results of consultation are now back and show that route 4 (attached) was the most popular, however based on the comments we believe there may have been some misunderstanding in the survey with people thinking that the Shropshire Way as it exists now will be removed. For clarification please note that what exists on the ground at present will remain, this survey was to establish the preferred option of a main route which will be upgraded, maintained and promoted as the County's flagship route.

With this in mind and the combined responses to routes 4 and 1, there was an overwhelming response that a figure of 8 route around the County was preferable and that there is a demand for the route to go around the North of the County.

With regard to the options for waymarks there were written comments on the survey responses expressing the desire to use the original buzzard in black and white. With this in mind further thought is going into the choice of waymark.

You indicated on the survey that you would like to be involved in the project and we will need support from volunteers to carry out much of the work involved particularly the Parish Paths Partnership groups. Could you please indicate in what capacity you would like to be involved from the options below:

- 1) Practical work – Surveying, installing furniture, clearing paths, waymarking.
- 2) Promotion and Marketing- writing press releases, radio interviews, development of interpretation, guided walks etc.
- 3) Involvement in the Shropshire Way Association
- 4) Other – Please state.

The Project is still at an early stage but will be progressing over the coming months. Please email me to let me know how you wish to be involved or to find out more information or to learn more about a Parish Paths Partnership group in your area.

Kind regards

Helen
